Washington, Feb. 4.—The Alabama Claims Court have just decided that for-eiguers whether naturalized or not are entitled to the protection of our flag on the high seas against any wrong from any hostile power, and have a right to a share in the distribution of the fund provided for the settlement of those claims. mittee.

share in the distribution of the fund provided for the settlement of those claims.

The Committee of Ways and Means met the Secretary of the Treasury last night in his private office in the Arlington Hotel. All the members were present and besides the general discussion which ensued the Secretary was fully iterrogated as to the reason of his recommendation by Mr. Conant. He answered the question to the satisfaction of the Committee. It is probable that these views were maintained having their birth in the actual provisions of the law; first, that out of the revenues of the Government there must be reserved a sufficient amount to pay the interest on the public debt.

At any rate, the precedent was estab-

public debt.

At any rate, the precedent was established and continued even down to and through the administration of Mr. Boutwell, who claims to be the father of this provision for the sinking fund. Secretary Bristow is firm on the recommendation for a reversal of the practice by actually setting apart the one per cent, for the sinking fund, and if the deficits occur, to let them be in other Departments of the Government.

It is known that the Syndicate in Europe has urged these views and the

rope has urged these views and the strict adoption of this plan for the purpose of strengthening U. S. securities abroad and an actual compliance with the law. The Committee will recommend an increase of taxation, for a compliance with the law is now more seripliance with the law is now more seriously regarded; and, while the Secretary will ask for murginal sums, it is possible that the provision will be made for an increase beyond \$25,000,000 or \$30,000,000.

BRITISH SUBJECTS NOT TO SHARE IN THE ALABAMA FUND.

The Alabama Claims Court have furth. er decided that the subjects of Great Britain are to be excluded from any par-ticipation in the distribution of the fund yor the settlement of these claims, as has been allowed to other foreigners.

## The Bescher-Lillon Trial.

BROOKLYN, Feb. 4-Mr. Tilton resumed his place this morning, and the crossexamination by Mr. Evarts was commenced. He was shown a paper, which he could not identify as the letter written by Mr. Beecher to the Cleveland Convention, which caused the political differences between Beecher and himself.

On Tuesday he remained at the bank till 3 o'clock in the afternoon, attending to business as usual. After that hour he repaired to the rooms of the Phænix Club, northeast corner of Central avenue and Court street. White there he experienced an uncomfortable tingling sensation in his right hand and arm, and threw out his hand, hoping the motion would remove the strange feeling, but soon after fell senseless to the floor. He was immediately removed to the Library, and physicians were summoned. Consciousness returned, but not speech, though several times the patient made efforts to answer those standing about him, whose questions and conversation he evidently understood.

tions and conversation he evidently un-derstood.

At 6 o'clock he was removed to his residence, No. 62 W. Eighth st., where his condition has been carefully watch-ed by the physicians, hour by hour; but about noon to-day he grew rapidly werse and died at 2.39.
